

Prayer Requests for New Year

Hope you might continue to pray God's healing for my heart itself...for the conductive syndrome (electrical signals) and my lack of endurance. I tire so quickly.

Interviews for National Day of prayer: We invite you to visit our remodeled prayer website www.teachustoprayer.com and pray that we get positive responses to our requests for radio interviews with American Family Radio, Bott Radio and other Christian Stations in time for National Day of Prayer.

The work on our translations to the Dravidian languages of India: Bengali, Gujarati, Telegu, Gujarati, Marathi and Tamil is giving us problems. If you know a missionary in these languages have them email us partner@bibleparent.com

Repeat prayer request for my brother Phillip, his dementia is getting worse and he is not sleeping at night. Hope you might pray for grace to sleep when it is time and God's comfort. Hope you might pray too that God helps him remember how to play our domino game: 'mexican train" the one remaining thing we can share??
