

## Pray for: Prayer Cup Project with National Day of Prayer Task Force

**This is the email we received this week, hope you might join Lisa, Gina and I as we pray for her prayer???**

Charles:

Thank you for the coloring books; they were received. I will be sharing them with our national leaders next month when we meet.

Gina, copied above is a children's pastor in Laramie, WY and also our National Area Leader over 6 states. I wanted her to review with me your materials as she shared at our annual summit last week about engaging children in prayer.

LORD, strengthen Charles heart and encourage him that his work will continue for the next generation. **Lead us into Your plan for teaching children the power of answered prayer and all that relationship with You offers.** In Jesus the Name above all names for Your glory today and tomorrow and evermore.

Christ in us, the hope of glory!

**I saw the surgeon for the first time since my heart attack in April.**

Most things were pretty good but my standing blood pressure was over twenty points lower than my sitting. They did not like this and want me to wear a halter monitor sometime next week. Hope you might pray that if God does not heal this that they find the problem.

If I am to continue with the "Prayer cup" project I pray The Holy Spirit guide both my heart and mind.
